

Saskatchewan's Native Prairie: Taking Stock of a Vanishing Ecosystem and Dwindling Resource Outcomes

Grade 4 Science

Outcome: HC4.1 Habitats and Communities

Investigate the interdependence of plants and animals, including humans, within habitats and communities. [CP, SI]

Outcome: HC4.2 Habitats and Communities

Analyze the structures and behaviours of plants and animals that enable them to exist in various habitats. [SI]

Outcome: HC4.3 Habitats and Communities

Assess the effects of natural and human activities on habitats and communities, and propose actions to maintain or restore habitats. [CP, DM]

Grade 6 Science

Outcome: DL6.1 Life Science: Diversity of Living Things

Recognize, describe, and appreciate the diversity of living things in local and other ecosystems, and explore related careers. [CP, SI]

Grade 6 Social

Outcome: DR6.1 Dynamic Relationships

Analyze the impact of the diversity of natural environments on the ways of life in Canada and a selection of countries bordering the Atlantic Ocean.

Outcome: DR6.2 Dynamic Relationships

Analyze ways in which the land affects human settlement patterns and social organization, and ways in which human habitation affects land.

Grade 7 Science

Outcome: IE7.2 Life Science: Interactions within Ecosystems

Observe, illustrate, and analyze living organisms within local ecosystems as part of interconnected food webs, populations, and communities. [SI]

Outcome: IE7.4 Life Science: Interactions within Ecosystems

Analyze how ecosystems change in response to natural and human influences, and propose actions to reduce the impact of human behaviour on a specific ecosystem. [DM, CP]

Outcome: MS7.3 Physical Science: Mixtures and Solutions

Investigate the properties and applications of solutions, including solubility and concentration. [SI, DM]

Grade 8 Social

Outcome: RW8.3 Resources and Wealth

Critique the approaches of Canada and Canadians to environmental stewardship and sustainability.

Grade 9 Social

Outcome: DR9.3 Dynamic relationships

Assess the relationship of the natural environment in the development of a society.

Environmental Science 20 (Draft)

Outcome ES20-TE1 Terrestrial Systems

Examine the role plants play in an ecosystem, including ways in which humans use plants.

Outcome ES20-TE2 Terrestrial Systems

Recognize the need for intact habitat to support animal populations.

Outcome ES20-TE3 Terrestrial Systems

Analyze soil as an integral component of terrestrial ecosystems.
